

# ASCEND

BROADCAST  
STUDIO

PROFESSIONAL LIVE STREAMING · MADE  
SIMPLE

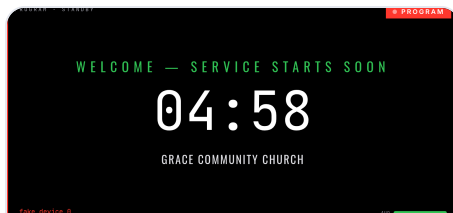

Broadcast like a pro — run it with one  
operator.

Trial — 14 days left [ACTIVATE](#)

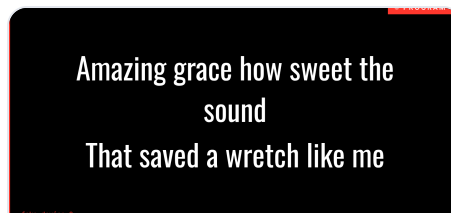

Turn any Windows PC into a full television production studio. ASCEND was built for the volunteers actually running the service — **fast, reliable, and distraction-free**. Switch cameras, hold a countdown, drop a name banner, show a verse, cut to song lyrics, and record a broadcast-quality MP4 — without expensive hardware or a steep learning curve.

## SEE IT ON SCREEN

### Countdown Slate

Hold a “starting soon” timer over your logo before the service — auto-cuts to Camera 1 at zero.

### Song Lyrics & Set List

Load a lyrics file, step through verses, and save songs into a drag-to-order set list.

### Scripture, Offline

Show any verse or full chapter — KJV & WEB built in, no internet needed.

## — EVERYTHING INCLUDED

- ✓ Up to **10 cameras** — switch with a click or a **number-key camera bank** (auto-fade)
- ✓ Dual-monitor **Preview / Program** TV-style workflow with smooth transitions
- ✓ **Worship lyrics** — full/lower/corner display, searchable songbook + **CCLI SongSelect®** import
- ✓ **Countdown slate** & one-tap **Hold / logo screen** for offering & prayer
- ✓ Custom **lower-third** name banners with your colors & logo
- ✓ **Offline Bible** — KJV, WEB & Spanish built in, plus import your own translations
- ✓ **Announcements** on a **separate projector/stage screen** — looping slides, independent of the stream
- ✓ Broadcast audio: level meter, **noise gate** & **compressor**
- ✓ PiP & side-by-side scenes, intro videos, per-camera color
- ✓ **One-click streaming** to YouTube, Facebook & your site **at once** + broadcast-quality **MP4 recording**
- ✓ Runs offline on a standard PC — **no monthly fees**; export a full **set list** in one file

**Runs on:** Windows 10/11, macOS 11+, or Linux · quad-core CPU · 8 GB RAM (16 GB rec.) · any USB/UVC camera or HDMI → USB capture (up to 10 cams) · ~5 Mbps upload per stream (wired recommended).

## — HOW ASCEND COMPARES

| FEATURE                              | ASCEND              | OBS     | VMIX         | PROPRESENTER |
|--------------------------------------|---------------------|---------|--------------|--------------|
| Multi-camera switching (up to 10)    | ✓                   | ✓       | ✓            | ×            |
| Song lyrics + saved set list         | ✓                   | ×       | titles       | ✓            |
| Scripture / Bible, offline           | ✓                   | ×       | ×            | add-on       |
| Lower thirds + countdown / hold      | ✓                   | manual  | ✓            | ✓            |
| Pro audio: noise gate + compressor   | ✓                   | plugins | ✓            | ×            |
| Live streaming + MP4 recording       | ✓                   | ✓       | ✓            | ×            |
| Stream to multiple platforms at once | ✓                   | plugin  | ✓            | ×            |
| Runs on ONE PC (no 2nd machine)      | ✓                   | ✓       | ✓            | +switcher    |
| Volunteer-friendly to run            | ✓                   | steep   | complex      | moderate     |
| Price                                | <b>\$49.95 once</b> | Free    | \$60–\$1,200 | \$289 / yr   |
